HOW ATS CAN HELP

We have developed a plan to increase the speed of adapting to a new and efficient collaboration model powered by Microsoft Teams, a leading communication and collaboration platform. Organizations can leverage the power of Microsoft Teams to maintain business continuity during times of crisis, for working remotely, and to increase productivity. Our proven Microsoft Teams deployment methodology includes:

1. Customized & specific collaboration workflows
2. Microsoft Teams Meeting and Meeting Rooms
3. Security requirement implementation
4. Training and additional support

WHAT YOU CAN EXPECT

The MDS Teams Rapid Deployment includes:

- Teams Workshop to meet your security, operational, and technical requirements
- Office 365 Tenant Provisioning & Azure AD Connect deployment
- Microsoft Teams Rapid Deployment (anticipate a three week deployment, Fixed Fee)
