

Deploy remote work scenarios—rapidly and securely

Microsoft Secure Remote Work Workshops by Advanced Technology Solutions (ATS)

"Thanks to your vision and hard work, we can now continue to work together and be fully productive in a virtual setting."
-Maciej Kranz, CEO of Kone

Remote work is enabling millions of workers around the world to remain productive, helping organizations to maintain business continuity in the face of our global health crisis.

Workshop highlights*

Evaluate your remote work options and business implications with Microsoft and ATS

Enable remote work quickly, with more advanced options available, as you need them

These workshops leave you with a concrete deployment plan, timelines, and action items

*Generally, 2-3-week duration, Fixed Fee

Enable your team to work anywhere with Remote Work Workshops

With these workshops, we'll show you how you can use Microsoft technologies to:

Empower people to stay connected

- Enable people to meet and collaborate from home
- Engage people with virtual events and communications
- Make productivity applications available on any device

Maintain security and control

- Enable cloud identities with single sign-on and self-service password reset
- Secure, remote access to Microsoft Teams
- End point security with content restrictions and termination

Why you should attend

We will discuss the most critical steps for remote work, and how we can rapidly deploy key scenarios. We will also evaluate your options and leave you with a concrete deployment plan and next steps.

These workshops are primarily focused on business continuity, reliability, availability and security addressing the following quick steps of enablement:

1. Enable cloud or hybrid identity

Single sign-on and self-service password reset

2. Rapid deployment of Teams

Checklists, activation, installation, configuration

3. Adoption Kits

End user training, workload introductions & support resources. End point security briefing.

4. Secure access to Teams

Conditional Access and Multi-Factor Authentication (MFA)

In addition to the **Deployment Guidance report**, you'll get:

- Environmental & workload analysis, including a quick assessment of your security posture
- A list of actionable recommendations to deploy hybrid identity, Microsoft Teams, and security
- Teams & Security Adoption Kit, including end user training, workload introductions, and support resources
- An inside look at Microsoft's holistic approach to remote work and how it relates to your organization
- Identification of potential blockers and challenges
- Recommendation on free Microsoft 365 trials for immediate deployment
- Comprehensive technical guide for advanced remote work scenarios

Follow-up discussions

These workshops are focusing on quick and secure remote work enablement, which is also a foundational element for future conversations on our Microsoft 365 solutions. There are additional, Microsoft-sponsored workshop conversations that are available, including:

- Teams Adoption Workshop
- Teams Meeting Workshop
- Teams Calling Workshop
- Teams Solution Workshop
- Secure remote access to on-premises apps (App Proxy)
- Enable users to securely access cloud apps from outside corporate networks
- Advanced Security Workshop (including Threat Check)
- Compliance Workshop
- Windows Virtual Desktop Workshop

Who should attend

The workshop is intended for decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Data Protection Officer
- Data Governance Officer
- IT Security
- IT Compliance
- Data Governance
- IT Operations
- IT Admins

Why Advanced Technology Solutions (ATS)?

When it comes to compliance, you need an experienced partner.

ATS is a proud **Microsoft Partner**. Our experts excel at keeping our clients secure and compliant by continuous training, customizing security footprints to meet business needs, and implementing industry standard practices. Whether it is a 100-user company or a 10,000-employee global organization, ATS has you covered.
