Wharfedale+Azure: Unmatched SAP cloud transformation experience

Wharfedale is a Microsoft Gold Partner. ATS has a long-standing relationship with Wharfedale in solving complex IT issues. **Wharfedale's** long-standing partnership with Microsoft helps smart businesses go further, achieving more, and align with the 'new' Microsoft's digital transformation philosophy across business applications, modern workplace, and intelligent cloud. Our expertise spans two pillars: Wharfedale as a Microsoft customer and Microsoft's strategic go-to-market partner globally.

With deep domain expertise, proprietary tools, frameworks, and accelerators, we help clients embark on a successful journey of cloud migration, modernization, and innovation. Leading brands across the globe have achieved profitable outcomes from our industry domain services focused on data, analytics, security, and customer/employee experiences.
